ENTREPRENEUR | BIZ EXPERT | SPEAKER

Background

I grew up in a family of entrepreneurs and experienced the highs and lows of business ownership from an early age. In 2016 driven by a deep fire for enterprise, I made the bold decision to leave law school and pursue business full-time.

Experience

Over the years, I've built, tested, and pursued over 20 different business ventures from scratch. I've faced significant financial setbacks, lost millions, and gained invaluable lessons through real-world trial and error, lessons that now shape the way I handle business and support others.

Role

I currently serve as the **Founder & CEO of The Roviin Group** and operate as a **Business Consultant, Digital Transformation Expert,** and **Professional Speaker.** At the Roviin Group, I lead multiple ventures across multiple industries, from consulting, to agriculture, logistics, and consumable products.
